

PATIENT PREPARATION

Preparing for your neurosurgery consultation

Gather the information you already have. The office will confirm what is needed for your visit.

YOUR VISIT CHECKLIST

- ☐ Diagnosis and specialist notes. Include recent neurologist notes and relevant evaluations.

- ☐ Medication history. List names, doses, treatments tried, response and side effects.

- ☐ Prior care. Gather details of previous surgeries, procedures and other therapies.

- ☐ Imaging. Have reports available; arrange the actual images if the office requests them.

- ☐ Your goals. Think about symptoms and daily activities that matter most to you.

- ☐ Visit logistics. Have insurance, referral and authorization information ready.

QUESTIONS TO DISCUSS

What benefits and risks should I expect? What are the alternatives? What might recovery and follow-up involve?

APPOINTMENT SCHEDULING

310-825-5111

Use the scheduling team's official, external channels for appointments and secure records. Do not email health records to this personal website.

Preparation only. This checklist does not determine treatment candidacy.
